Good Morning. Any news on this?

Regards,

Eric

Good Morning:

Please let me know about GES Property Owner Liability Waiver or addition to insurance procedure.

I have the procedure from Weston below and example attached. I have meetings with NFB Property Owners at 1PM and need to relay this information. Thanks

Eric,

Getting the insurance setup for NFB is no problem and can be completed through our insurance carrier within a day or two (I have attached an example for your reference). The information below (highlighted yellow) is an example of the information we will need for each property and property owner. We will also need to establish a timeframe for the insurance to span from.

Property Address:

95 and 107 Kisco Avenue

Mount Kisco, NY 10549

Owner's Address:

Stagg Group

141 Hillside Place

East Chester, NY 10704

Spanning: July 17, 2015 through December 31, 2015

Subject: RE: NFB Revised SOW and Draft DWO
Importance: High

Good Afternoon:

Susan, welcome to the team!!!

Attached is the revised DWO based on our discussion this afternoon. Also attached are the two T&D facilities Weston researched for us to obtain estimate numbers for our action memo. This would be a good place to start regarding container types and eventual T&D bids. Please reference the Niagara Falls Boulevard Site and Weston Health Physicist (Robert Shoenfelder-R.Schoenfelder@WestonSolutions.com) when talking to the representatives.

Please remember to let me know how Guardian handles waiving liability for the property owners in regard to GES personnel being injured during site activities. Typically we are able to get property owners added as additionally insured on our contractors' insurance.
